

Aritra Dhar

Frontend React JS | Native and Web3 Developer

Phone: +91 8420873513 | Email: aritrodhar.ad@gmail.com | Kolkata, West Bengal, India

Portfolio | LinkedIn | Github

Summary

Frontend React JS, Native, and Web3 developer with hands-on experience building blockchain-based supply chain systems, AI-powered applications, and full-stack web and mobile products. National hackathon champion with a proven track record of shipping projects across Web3, AI/ML, and app development.

Experience

GRC & Cybersecurity Intern

Cybernara (Australia based – Cybersecurity Firm)

May 2026 – June 2026

Remote, Kolkata

- Prepared Compliance and Audit workbooks for frameworks such as SOC-2, E-8, ISO27001, and NIST SP800.
- Prepared Vulnerability and Threat Analysis Reports for several live domains.

Achievements

- **Smart India National Hackathon 2025** – Won as national champion (CODE NIRVANA – PS25057) (Meta-Mark AI)
- **Smart India Hackathon 2024 & HackHeritage 2024** – Among the Top 6 teams for PS 1627 at SIH 2024, and part of the #1 winning team at HackHeritage 2024 as CODE NIRVANA
- **Smart Bengal Hackathon 2025** – Finalist team as CODE NIRVANA
- **Yukti Regional Meet 2025** – Selected with Project Nirvana at the regional meet, Kolkata

Projects

Nirvana Health-Chain & Smart-App

Deployed: Github

Blockchain-based anti-counterfeiting supply chain platform paired with a consumer-facing app for medicine ordering and authenticity verification.

- Built an immutable, tamper-proof drug inventory and supply chain tracking system using complex hashing.
- Developed the consumer app with Razorpay-integrated ordering, medicine authenticity checks, and an efficient payment flow.

God's Eye AI System

Deployed: Github

Advanced AI system for enhanced real-time camera surveillance, featuring privacy-preserving content blurring, deepfake and image purity detection, and zero-shot detection for copyright enforcement.

Meta-Mark AI

India's first AI-based legal metrology compliance checker, with real-time analysis and a browser extension for ready-to-use application in e-commerce platforms (Flipkart, Amazon).

Technical Skills

Languages: Solidity, HTML, CSS, JavaScript, Java, Python

Frameworks: React / React Native, Next.js, TailwindCSS, Node.js, Ethers.js, HardHat, IPFS, Flask, Scikit-Learn, OpenCV, Flask REST

Tools & Cloud: Google Cloud, Git, Stitch, Blender, Claude, Antigravity

Education

Heritage Institute of Technology, Kolkata

Bachelor of Technology in Information Technology

CGPA: 7.9

Assembly Of God Church School, Tollygunge

ISC 2023 (PCMB)

Percentage: 91%

ICSE 2021

Percentage: 89%

Other Skills
